## Creating an account on APO

Go to [www.apo.aero](http://www.apo.aero)

Click on the “Register” link at the top right hand of the APO front page.

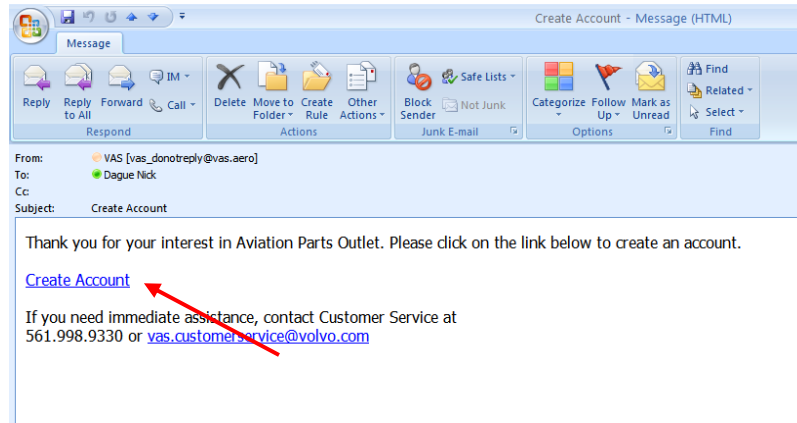

Then enter your information requested. If you are a current VAS customer with an account, then click the indicated radial box below. Then press the “Submit” button

The screenshot shows the APO website registration form. The form is titled "Create/Register Account". It has a checkbox labeled "I have an account with VAS". Below this, there is a section for "General Information" with fields for First Name, Last Name, Phone, Username, Email, Password, and Confirm Password. A red arrow points to the "I have an account with VAS" checkbox. A red bracket groups the Password and Confirm Password fields. The form has a "Submit" button at the bottom. The footer contains a link to the FAQ and a copyright notice for 2011 VAS Aero Services.

You will receive an email verifying that your information was sent to VAS.

You will then receive an email where you will be prompted to create an account.

See below

If you are an existing customer, enter the below information.

Click "Advanced Search" link from the APO homepage

The screenshot shows the APO Advanced Search interface. On the left is a sidebar with a 'Part Search' section containing a search input and a magnifying glass icon, and a 'Support Options' section with contact information for AOG support and assistance with APO. The main content area is titled 'Advanced Search' and features two search options: 'Single Part Search With Wildcard Support' and 'Multiple Part/NSN Search'. The 'Single Part Search' section has a text input field with a magnifying glass icon and a blue globe icon. A red arrow points from a text box labeled 'Enter one part number at a time' to this input field. The 'Multiple Part/NSN Search' section includes a heading, a message 'Hello Guest, you may enter or paste up to 25 items.', and two buttons: 'Search' (with a magnifying glass icon) and 'New' (with a document icon). A red arrow points from a text box labeled 'Enter multiple part numbers here' to the 'Search' button. The footer of the page contains the text 'FAQ | © 2011 VAS Aero Services'.

User/Installer Responsibilities  
It is important to understand that the existence of this document alone does not automatically constitute authority to install the component(s) on an aircraft.  
Where the user/installer work is in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.  
Statement in Blocks 14 and 19 do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the operator before the aircraft may be flown.
